

Archer & Smith at Decorex 2007

Building upon highly successful Decorex exhibitions over the last three years; furniture makers Archer & Smith have added further pieces to their "Collection". These pieces will be shown at this year's Decorex which runs from 23rd - 26th September.

The new pieces bear the hallmarks of luxurious materials combined with the very finest quality of traditional English cabinet making skills. Designs are based on mid 20th century influences with contemporary detailing.

Climo Armoire

To see more of the Archer & Smith Collection, please visit their [website](#).

Archer & Smith Limited will be at Stand No. F189.

Designed by Charles Bateson

The Collection has been designed in collaboration with renowned designer Charles Bateson.

"It has been a pleasure working with Archer & Smith over the past few years in developing their Collection and I am very excited with the new pieces. We have continued

to work to the very highest level of detail and finish using the finest quality materials."

Charles Bateson
